INDUSTRIAL STRETCHING/LENGTHENING

- Restores muscle length
- Improves circulation
- Improves mobility
- Decompresses the spine
- Maximizes productivity
- Feels good

Customized Industrial Stretching Programs are developed from two sources. ESI Wellness Symptom trends and On-the-floor observation of job tasks. Our Industrial stretches IMPROVE shortened and compressed muscles.

Shortened and compressed muscles, lead to poor circulation, fatigue and reduced productivity.

Industrial

Office

This program is an onsite program tailored specifically to your companies needs. We address employee symptoms proactively, resolving issues before injuries occur.
